Hi, Cathy,

We didn't receive updated SAR report and as mentioned to Country, based on current calculation of UBTDF, EUT cannot pass SAR evaluation.

Best Regards, Lucy Tsai/UL CCS From: Cathy Wang [mailto:Cathy@btl.org.cn] Sent: Sunday, February 13, 2011 5:34 PM

Dear Chris and Lucy,

Good day $\sim O(N_N)O\sim$

A big fovor could you two help to push forward the UBTDF report from Mike and Bill? Client hasten up urgently after Chinese new year, thanks for your understanding!

Look forward your quick response!

Have a nice day @_# Best regards,

Cathy Wang

Dear Chris and Lucy,

Happy New Year $^{-}$

Wishing you all the best for this year.

A lot of pleasure, good health and luck to you and all you love!

As wendy is still on Chinese new year holidays, I will be her deputy.

Just a short note to confirm the projects' status, have you received SAR test reports sent by Country during the Chinese New year Holidays?

If everything is fine, please kindly forward us the grant asap, thank you very much~

Best regards,

Cathy Wang

Dear Chris,

Good day ~ <@^_^@> ~

Thank you so much for your reply.

Mike and Bill are dealing with UBTDF report. Could you please confirm with them?

Please do not hesitate to contact us if there is any problem. Thanks.

Wendy Li (李倩) Best wish for you!

Wendy, you provided internal photos showing antenna locations, but have not yet provided any RF Exposure compliance exhibits. Is there a SAR report for this application?

Best regards,

Chris Harvey

Notice#1

Dear Chris,

Flower day~

Plaese refer to below reply:

- 1. The External Photos show the external appearance of the host and not the EUT. This application should document the EUT as installed into the host, showing where the module and its antennas are installed, not just the external appearance of the host. If you wish to include external photos of the host eReader, the photos should be labeled to indicate that it is a photo of the host device.
- -Please refer to revised Internal photos which indicate how 3G modular and antenna are installed.
- 2. Please provide the RF Exposure exhibits, including the antenna locations and separation and collocation information for this application.
- -Please refer to attached RF Exposure exhibits which including the antenna locations and separation information.
- 3. The Block Diagram and Schematics submitted appear to be for the host and not for the EUT which is a WWAN module. You have also provided a Bluetooth Declaration exhibit whish is only applicable to the host approval. These 3 exhibits are not necessary for this C2PC application unless the Block Diagram and Schematic for the WWAN module has changed. These exhibits can be removed from this C2PC application. Please confirm that this is acceptable for you.

-Yes, we can accept. Please removed.

- 4. The RF Test Reports, Manual and Operational Description exhibits submitted for this device indicates a model Pocketbook 903. The schematics list pocketbook 902. The Label shows the FCC ID YDUPB902R1 for the host eReader. Please confirm the model of the host device and update the exhibits accordingly.
- -Revised schematics, the correct model number is Pocketbook 903

-Label: Because there are total two FCC IDs, One is for the host(BT+WIFI) with FCC ID(YDUPB602R1) which already been granted,

The other is for the 3G module, Reflect the 3G module's FCC ID(YDUEDR100), as for this part, it is C2PC filing.

- 5. The Internal Photos show this EUT Module in the host eReader with only one of the 2 antenna connectors connected to an antenna. Please confirm that this is correct.
- This is correct.

If any other questions, please feel free to tell us to revise.

Dear Cathy and Steven,

You are listed as the Technical Contact for the above referenced TCB application. The following items need to be resolved before the review can be continued:

This application is a Class II Permissive Change to a WWAN module to include this module into a specific portable host.

- 1. The External Photos show the external appearance of the host and not the EUT. This application should document the EUT as installed into the host, showing where the module and its antennas are installed, not just the external appearance of the host. If you wish to include external photos of the host eReader, the photos should be labeled to indicate that it is a photo of the host device.
- 2. Please provide the RF Exposure exhibits, including the antenna locations and separation and collocation information for this application.
- 3. The Block Diagram and Schematics submitted appear to be for the host and not for the EUT which is a WWAN module. You have also provided a Bluetooth Declaration exhibit whish is only applicable to the host approval. These 3 exhibits are not necessary for this C2PC application unless the Block Diagram and Schematic for the WWAN module has changed. These exhibits can be removed from this C2PC application. Please confirm that this is acceptable for you.
- 4. The RF Test Reports, Manual and Operational Description exhibits submitted for this device indicates a model Pocketbook 603. The schematics list pocketbook 602. The Label shows the FCC ID YDUPB902R1 for the host eReader. Please confirm the model of the host device and update the exhibits accordingly.
- 5. The Internal Photos show this EUT Module in the host eReader with only one of the 2 antenna

connectors connected to an antenna. Please confirm that this is correct.

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of the original e-mail date may result in application dismissal and forfeiture of the filing fee. Also, please note that partial responses increase processing time and should not be submitted. Any questions about the content of this correspondence should be directed to the e-mail address listed below the name of the sender. Revised documentation should not be emailed, but instead should be submitted through "Add Attachment" function at the UL-CCS website. Please have your Assessment Number and FCC ID/IC Certification number handy. You may use the following link: https://cert.ccsemc.com/filing/

Best regards,

Chris Harvey Charvey-tcb@ccsemc.com
